## Manufacturer Provided Description

The Riviera design team in collaboration with 4D Designs have created the Sports Motor Yacht Collection; inspired by a wish list from our global family of experienced Riviera owners. Onboard your Riviera Sports Motor Yacht, you will fall under an exotic spell in the absolute lap of luxury, relaxing in complete tranquillity or revelling in adventure, exploring, snorkelling, fishing, creating, and sharing truly memorable moments with family and friends.

The 46 Sports Motor Yacht offers a wide, open cockpit designed for water sports action. Three entertaining and dining options. An aft gourmet galley and spacious saloon. The accommodation deck offers three staterooms and two large ensuite bathrooms.

Stretch out and relax on the foredeck sun pad; or the daybed on the alfresco deck; or perhaps the flybridge daybed will be your favourite. Pamper your family and friends on board Riviera's new ultra-luxury 46 Sports Motor Yacht. And discover easy-to-use technology that makes boating with Riviera more enjoyable, for a weekend escape or a long-range adventure.

## Deck

The generous swim platform includes a retractable swim ladder. Owners may select an optional high/low hydraulic platform and optional stainless-steel rails.

Twin transom doors open out parallel to the transom to allow the boarding platform to become part of the cockpit, creating one large water sports or entertaining platform. The wet bar forward on the port side of the cockpit includes an electric barbecue, sink with hot and cold water and storage. For your convenience a Volvo Penta engine joystick control is mounted on the port side coaming. A top-loading freezer and icemaker is in a unit to starboard.

Just up from the cockpit, the alfresco deck is designed with plush outdoor lounges on either side. A folding timber dining table with drink holders is in front of the port lounge and an insulated icebox is underneath the seating. The starboard lounge can quickly and easily be converted to a day bed. Glass panels on either side provide weather protection and privacy. A large hatch in the deck leads via a ladder to the engine room.

With saloon windows and door opened, this deck provides approximately 30% additional entertaining space to the saloon. Adding breezeway or clears to the rear of the deck creates a large all-year-round interior space for relaxation or entertaining.

Walk-around decks on either side lead to the foredeck that welcomes with twin sun pads with adjustable headrests. Deck hatches provide light and air for the bathrooms and master stateroom below. An integrated bowsprit includes vertical anchor winch controlling a 27 kg (60 lbs) Ultra anchor with 50 metres (164 feet) of 10mm (3/8") galvanized chain.

## Saloon

Stepping through the sliding glass door from the alfresco deck, the generous saloon provides guests with 360-degree views through wide opening side windows and a curved windscreen.

The U-shape galley, aft on the starboard side, offers the chef all of the appliances needed to create and serve sumptuous meals. It includes a dual element electric cooktop, combination microwave oven that includes a grill and a generous solid surface benchtop with a stainless-steel sink and mixer tap. Drawer refrigerators and glass storage drawers are under the flybridge staircase opposite.

Forward on the port side, a timber dining table is surrounded by a luxurious U-shape lounge that will seat up to five people. Opposite is a second lounge, L-shaped and designed to comfortably seat four adults.

Entertainment is offered via an electric-lift 43-inch TV discreetly built into the dash immediately forward of the dining space.

For your comfort, the saloon is fully air conditioned.

## Engine/Mechanical

Power for the 46 Sports Motor Yacht is provided by twin Volvo Penta D8-IPS800s with IPS pod drives delivering 441kW (600hp) each. Owners can option Volvo Penta D11 IPS950s delivering 533kW (725hp) each.

An 11kW Onan generator is included to provide AC power with the option of a 13.5kW genset.

The Riviera 46 Sports Motor Yacht features a hand-laid GRP hull with independent compartments throughout, foam filled where appropriate for added strength, sound and vibration dampening. A watertight collision bulkhead is forward.

The transverse GRP fuel tank carrying up to 2,500 litres (660 US gallons) is set immediately aft of the midships staterooms and is coated in fire retardant resin.

With a capacity for six adults sleeping on board, Riviera has provided a 500-litre water tank and 151-litre holding tank.

Riviera includes the Siren Marine remote monitoring and control system on all new yachts. Riviera offers an industry-leading two-year express and seven-year structural limited warranty on all new models. All Volvo Penta systems are covered by a five-year limited warranty.

## Accommodations

The 46 Sports Motor Yacht includes three generous staterooms on the accommodation deck as well as a combination clothes washer and dryer cleverly placed under the stairwell and accessed from a starboard midships stateroom.

The master foreword offers a queen double bed with inner spring mattress. A full-height cedar-lined hanging locker is in the aft quarter to port. Additional storage is available under the bed. Natural light streams from hull windows on either side and the deck hatch provides both light and fresh air when at anchor or a mooring. The en-suite bathroom, aft on the starboard side, includes a separate shower, vanity and Vacuflush toilet. Natural light is introduced from a full-length window while overhead light and fresh air flow from a deck hatch.

The two guest staterooms are amidships, each illuminated from large hull windows with opening portholes. The port side stateroom offers a queen double bed while the starboard stateroom provides twin side-by-side single beds. The second bathroom, on the port side between Master and guest staterooms, can be utilized as an en suite to the port stateroom. A door in the companionway allows access to the port bathroom for guests in the starboard cabin as well as day guests.
