Description

This 59' Marquis is the best one out there and likely the only one with ZIPWAKE Interceptors! The old trim tabs were removed. Newly installed ZIPWAKE interceptors quickly trim the boat and the system's interceptors, motion controller and gyro sensors work together to dynamically – and automatically – eliminate listing and balance your turns.

In preparation for the market, the engines have been inspected and serviced, new batteries installed, new bottom paint, new underwater lights, hull buff and wax, and much more.
