Fuel: **800 gal Steel**
Fresh Water: **200 gal GRP**
Holding: **1 x 100 gal GRP**

Accommodations

Guest Cabins: **3**
Guest Heads: **2**

Description and walk through

Of the eighteen 53' Prima's built, only two have the twin 450hp Cummins engines! These provide a top speed of 26 knots and set an easy cruising speed at 23 knots. "Only You" is one of the rare two!

It is the only one with the 16 KW Northern Lights generator in lieu of the standard 12 KW generators.

All of the 53' Prima's have four water & gas tight bulkheads which make up five water & gas tight compartments in the boat. If anything makes a smell, or allows water or gas intrusion into the bilges of the vessel, it will not migrate to the others. Each compartment has its own bilge pump.

"Only You" also has, among many other things, a complete, detailed and current owner's manual that the owner had prepared for the next steward of this magnificent yacht.

The current owner of "Only You" has owned her for over 9 years and has always had a professional crew constantly upgrading and keeping her in perfect condition. (They wax it every time the weather allows) He still loves this boat and is only selling it because he has purchased a bigger version of it and has run out of things to do and spend money on with "Only You" and it shows.

Preferred boarding is from the large swim platform that extends around the sides of the transom. This offers easy access from a floating dock. There is a custom davit for the tender that holds the 11' dinghy over the swim step and rotates aft and down to launch. After launching the tender, the davit can continue down under the water to become a large swim ladder. With the davit out of the way, the swim platform becomes more open and usable.

There are two steps up to the aft deck on each side with beautifully crafted stainless steel gates to close when desired. One of the most eye catching features of the Prima 53's are the curved, full height, glass doors that extend from side to side allowing nearly full width access to the main salon on the same level.

There is an entertainment center on the starboard side that features high-end audio/ video equipment. A bar is located on the port side that has a sink, ice maker, glass and bottle storage. (Most of the counter tops are black onyx).

You will instantly notice that all of the cabinetry is very well done with black onyx on most of the counter tops. The cabinets feature inlaid marquetry and well designed curves that help you flow through the boat without a sharp corner to bump into. All of the finishes are varnished to absolute perfection without a scratch or blemish to be seen.

An extremely comfortable sofa curves around the port side of the salon and a bar counter with two stools are on the starboard side which blend in with the galley. A power lift hatch in the salon floor opens to allow access to the large pantry/ stowage area. A highlight of this unique pantry is that it also has a freezer and wine cooler!

The lower helm station offers 360 degree visibility and is up one step and forward of the galley. This station features a power operated side door that gives access to the starboard side deck. Opposite the lower helm is a raised settee that seats six for dining, or comfortable lounging while underway. Built into the aft part of the settee is a beautifully crafted, see through, stainless steel stairway with teak step treads to the fly bridge. (It is an artistic statement to the rest of the quality found throughout the boat)

Forward and down is a rotunda/ foyer that has four exquisite curved doors. These doors feature the same hand crafted marquetry inlays as part of the overall interior styling seen throughout the boat. These doors lead to the master stateroom, the port and starboard guest staterooms and the guest head. Under the floor of the rotunda is a hatch that reveals a watertight bilge area that contains all of the thru hull penetrations, with easy-to-reach sea cocks for the air-conditioning, shower sump, etc. found forward of the engine room.

The large fly bridge offers seating for 12 guests. The two-person helm and companion seats have the option to face forward and aft. There is a back rest that swings forward and aft allowing the extra seating! There is also an area aft of the seating on the fly bridge for stowing life raft, bicycles, coolers, crab pots or other things that you may not want

to have strapped to the deck rails. All of the upholstery, canvas and clear enclosures are high quality and within three years old and show no wear.

All of the bilge areas and the engine room are spotless and dry. The boat has absolutely no odor anywhere. A large, power assisted hatch opens on the aft deck to provide easy and generous access to the engine room and machinery spaces.

There are also both bow and stern thrusters.

Galley

Three burner Princess electric range.

GE Profile convection/ microwave oven

Two U-Line under counter refrigerators.

U-Line ice maker

U-Line Freezer, located in pantry under salon floor.

Custom wine chiller located in pantry under salon floor
