Description

This 82 Horizon Skylounge is exceptionally well equipped and is a great value on the market for this size in a skylounge. Three staterooms, plus 2 crew cabins, can also be used like the current owner, as a 5 stateroom, owner operated vessel. This boat is easy to handle with 2 people, or kick back and let your crew do it all.

Built by Horizon Yachts with consultation from the original engineer/owner. This 82-foot yacht is an example of fine craftsmanship and technical sophistication and perfect for Pacific Coast cruising with the enclosed skybridge and secure walk-around decks. The vessel is fully equipped with redundant systems for safe and reliable operation, featuring advanced over-sized stabilization fully effective even at lower long range cruising speeds. A gourmet galley including a commercial gas range, separate crew galley/utility room, fully automatic ship's electric system which enables the vessel to exist on whatever power is available from 100amps 240v down to a single 50amp 120v plug. With a range of over 1000 NM at 11 knots, she is ready to cruise to wherever her new owner wants to go.

The vessels' name ONWARD is based on the historical ship ONWARD built in 1905 and the original ship's bell is on display in the salon.

Smaller trades considered!

Available for viewing beginning June 1 when it arrives in Seattle.
