## Description

See at the Seattle Boats Afloat show on Lake Union April 25th through April 27th!

New arrival and now at our location in Seattle on Portage Bay.

New listing and new to the market. "Ronk and Roll" is a really clean 30 Cutwater with the desired Northwest options like the enclosed salon bulkhead. This is simply a very clever design with the ultimate in practicality. At home cruising to either Neah Bay or Roche Harbor this Cutwater will get you there.

Factory information: The Cutwater 302 Coupe (C-302 C) is an exciting take on our successful Cutwater 30 family cruiser. The Cutwater 302 Coupe takes the comfortable cruiser-friendly interior layout of our C-30 and adds the versatility and speed of twin counter-rotating 300 HP Yamaha outboards, which push its double-stepped hull effortlessly across the water. The C-302 C hull also incorporates our patented Laminar Flow Interrupter technology for smooth, positive cornering.

The Cutwater 302 Coupe cockpit is perfect for fishing with its large square footage, 30 gallon live well, large fish boxes, rod holders, rocket launchers, and sink. Once you've caught dinner, food prep is a breeze with the Euro-style galley, which is ideal for buffet or refreshment service. The cockpit is easily converted for entertaining with plenty of seating and an electric Kenyon BBQ grill.

The Cutwater 302 Coupe accommodates six on three separate berths, for exceptional privacy and comfort even on extended cruises. On the foredeck, two flush hatches open to reveal cushioned, secure observation seats, along with a central forward lounge. Add to this a long list of other features and the customer service that the Cutwater Brand has become known for, and you have a masterpiece of innovation that ensures unsurpassed enjoyment, year after year.

Other notable features and options:

- 9 new batteries installed April 5th, 2025 invoice available

- Underwater lights
- Marino Search light

## Engines and deck equipment

Vessel features twin Yamaha 300 hp outboard engines. Combined with the hull design of vessel she cruises very efficiently through the water at consuming a gallon a knot at 30 knots! There are two stations one at main helm and cockpit. Since the vessel is powered with outboards a nice custom feature was added to the boat where the hot water tank is also wired through the inverter. This gives the vessel hot water while underway! So because of this two additional batteries were added to the boat.

- Yamaha digital control monitor display with fuel flow and various data
- Trim tabs with independent control at helm
- Lewmar bow and stern thruster with joystick control and wireless controller
- Great smooth shifting Yamaha engines
- Lewmar horizontal windlass on bow with 20kg Bruce anchor
- Transom boarding door
- Port and starboard jump seats in cockpit area
- Wash down hose in cockpit
- LPG Propane locker port side aft corner swim platform
- 2hp Yamaha Outboard rail mounted starboard aft corner swim platform
- Triple Axle aluminum trailer included with sale of vessel at asking price
